

IMMIGRATION DETENTION BREAKDOWN (January - October 2025):

Louisiana State

Summary

Louisiana serves as a hub for immigration and detention, booking the second most people of any state in 2025 across nine large-scale detention facilities. These facilities serve different purposes: while some act as short-term staging sites for rapid deportation, others hold people in prolonged confinement, sometimes for months or even years. This patchwork system reflects a strategy of using remote facilities to isolate immigrants from legal, medical, and community support.

Key Facts

People Booked In: **79,308 People**
Over 79,000 unique people were booked into detention facilities in Louisiana.

★ Rank out of all detaining states: **#2**

% Not Convicted of Crimes: **66.03%**
Over 66% of people booked into detention facilities in Louisiana did not have a book-in criminality of "1 Convicted Criminal".

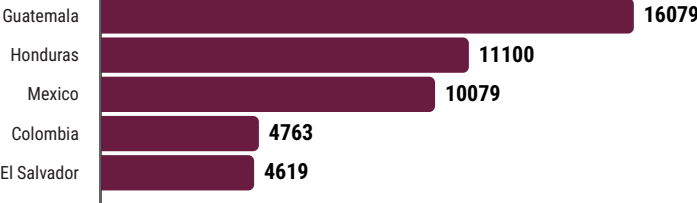

Average Detention Length: **12.68 Days**
People were detained for an average of almost 2 weeks in Louisiana. This is only one of what can be many detentions in a single stay.

★ Number of people detained for over 60 days: **4577**

Removal

When people are removed from detention, they are primarily either deported, transferred, or (very rarely) released.

Demographic Breakdown

The data below reflects the demographic breakdown for Louisiana in 2025. Please note that some categories may be incomplete due to gaps in reporting. Additionally, demographic sums may exceed the total unique headcount if an individual's status changed between bookings.

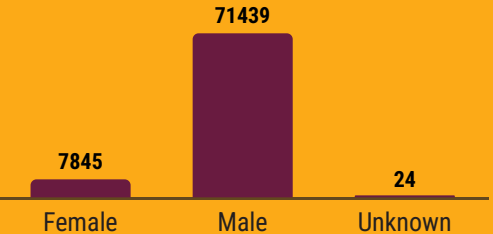

Detainees' Age:

Detainees' Ethnicity:

Detainees' Gender:

Source: The data used in this tool comes from the [Deportation Data Project](#) and includes detention records from September 2023 through mid-October 2025. For this project, we filtered the dataset to include only individuals *booked* into detention between January 1, 2025, and October 15, 2025. All counts reflect unique individuals, as defined by the unique identifiers provided by ICE. However, metrics such as the percentage of convicted criminals and average detention length were calculated using all relevant records. You can find more information about our code and methodology [here](#).

IMMIGRATION DETENTION BREAKDOWN

(January - October 2025):

Alexandria Staging Facility

Summary

The Alexandria Staging Facility is a 400-bed temporary holding center operated by The GEO Group under contract with U.S. Immigration and Customs Enforcement (ICE). Established in 2013, it primarily serves as a 72-hour staging site where detainees are processed before being deported. The facility is situated adjacent to the Alexandria International Airport, facilitating rapid transportation of detainees via aircraft.

Key Facts

People Booked In:

41,603 People

Over 41,000 unique people were booked into the Alexandria Staging Facility.

★ Rank out of all 600+ detention facilities: #1

% Not Convicted of Crimes:

63.26%

Over 63% of people booked into Alexandria Staging Facility did not have a book-in criminality of "1 Convicted Criminal".

Average Detention Length:

2.33 Days

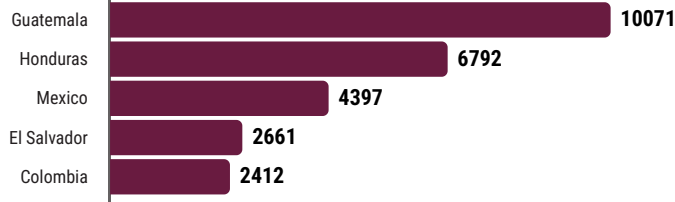

People spent an average of only 2 days detained in the Alexandria Staging Facility.

★ Number of people detained for over 60 days: 2

Removal

When people are removed from detention, they are primarily either deported, transferred, or (very rarely) released.

IMMIGRATION DETENTION BREAKDOWN

(January - October 2025):

Central Louisiana ICE Processing Center

Summary

The Central Louisiana ICE Processing Center (CLIPC) is a 1160 bed detention facility operated by GEO Group in Jena, LA. Opened in 2007 it primarily serves as a long-term holding facility. Before becoming an ICE detention center, the facility was closed after a federal investigation found it unfit for use based on the cruel and humiliating punishments and excessive force of staff. It came to national prominence in 2018, when Mahmoud Khalil was detained there unlawfully.

Key Facts

People Booked In:

8,804 People

Almost 9,000 unique people were booked into the Central Louisiana ICE Processing Center.

★ Rank out of all 600+ detention facilities: **#16**

% Not Convicted of Crimes:

60.25%

Over 60% of people booked into the Central Louisiana ICE Processing Center did not have a book-in criminality of "1 Convicted Criminal".

Average Detention Length:

26.33 Days

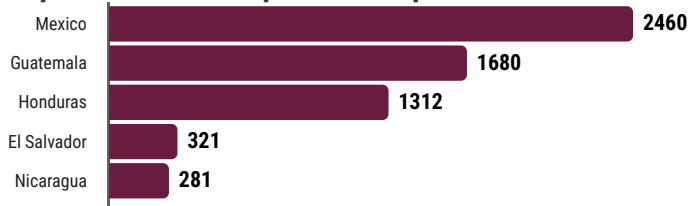

People spent an average of almost 4 weeks detained in Central Louisiana ICE Processing Center.

★ Number of people detained for over 60 days: **896**

Removal

When people are removed from detention, they are primarily either deported, transferred, or (very rarely) released.

IMMIGRATION DETENTION BREAKDOWN

(January - October 2025):

Richwood Correctional Center

Summary

Richwood Correctional Center is a 700+ bed facility in Monroe, LA, operated by LaSalle Corrections. In 2019, the facility began long-term ICE detentions and moved from primarily female detainees to female and male. Since its opening, this facility has faced multiple investigations and Civil Rights and Civil Liberties complaints alleging abuses, including the use of pepper spray on handcuffed individuals.

Key Facts

People Booked In:

3,842 People

Almost 4,000 unique people were booked into Richwood Correctional Center.

★ Rank out of all 600+ detention facilities: **#64**

% Not Convicted of Crimes:

78.4%

Over 78% of people booked into the Richwood Correctional Center did not have a book-in criminality of "1 Convicted Criminal".

Average Detention Length:

46.35 Days

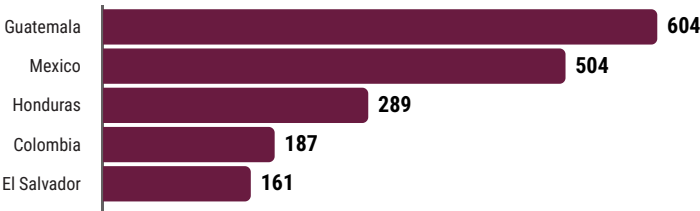

People spent an average of more than 6 weeks detained in Richwood Correctional Center.

★ Number of people detained for over 60 days: **736**

IMMIGRATION DETENTION BREAKDOWN

(January - October 2025):

South Louisiana ICE Processing Center

Summary

The South Louisiana ICE Processing Center is a 1000-person bed facility operated by GEO Group. Opened for ICE detention in 2019, it primarily serves as a long-term detention site for women in Louisiana. A 2024 Civil Rights and Civil Liberties complaint by the ACLU of Louisiana found broad violations of food, medical, and hygiene standards, as well as a lack of protections against infectious diseases such as tuberculosis and COVID-19.

Key Facts

People Booked In:

5,909 People

Almost 6,000 unique people were booked into the South Louisiana ICE Processing Center.

★ Rank out of all 600+ detention facilities: **#34**

% Not Convicted of Crimes:

80.12%

Over 80% of people booked into the South Louisiana ICE Processing Center did not have a book-in criminality of "1 Convicted Criminal".

Average Detention Length:

18.58 Days

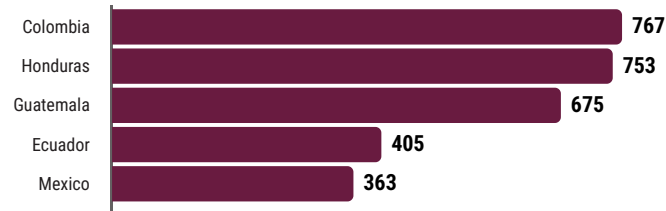

People spent an average of more than 2.5 weeks detained in South Louisiana ICE Processing Center.

★ Number of people detained for over 60 days: **459**

IMMIGRATION DETENTION BREAKDOWN (January - October 2025):

Winn Correctional Center

Summary

Winn Correctional Center is a 1600-bed facility near Winnfield, LA, operated by LaSalle Corrections. LaSalle took over operations in 2015, and the facility is for long-term detention of men. There have been multiple reports of abuse and Civil Rights and Civil Liberties complaints against Winn, but the Biden Administration extended the contract between ICE and Lasalle in 2024. Winn is one of the largest immigrant detention centers in the country and the second-largest in the NOLA ICE area of responsibility.

Key Facts

People Booked In:

8,378 People

Over 8,000 unique people were booked into the Winn Correctional Center.

★ Rank out of all 600+ detention facilities: **#20**

% Not Convicted of Crimes:

63.59%

Over 63% of people booked into the Winn Correctional Center did not have a book-in criminality of "1 Convicted Criminal".

Average Detention Length:

27.16 Days

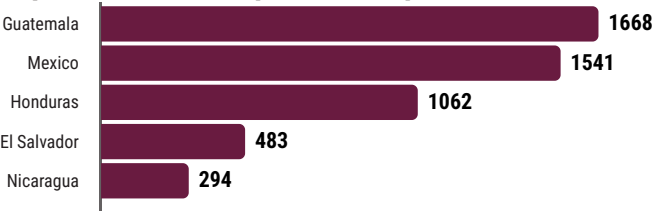

People spent an average of almost 4 weeks detained in the Winn Correctional Center.

★ Number of people detained for over 60 days: **897**
